

Dear Fellow Member,

Quite some time ago, Canandaigua Rotary Club began the practice of asking it's members their observations and comments addressing the on-going mission of Service Above Self. We now seek your help in order to better understand and respond to changing community needs. Please know that we sincerely welcome your replies with open minds and genuine desires to improve upon current services and activities. Once completed, kindly return this survey to a Membership Committee Co-Chairperson or Club Secretary (see your Rotary Member-Directory) at an early convenience. Thank you for contributing your valuable time and interest to this important matter!
